

Navipon® Dyes

For Solvent Based Inks and Coatings

Sunbelt's **Navipon®** line of dyes are bright dyes exhibiting vibrant shades, with good organic solvent solubility and excellent light fastness property. These dyes are economical and direct alternatives to Neozapon®, Orasol®, and Zapon® dyes and are available in powder form or specially formulated liquids in ethanol and glycols and can be used in:

- Gravure and Flexographic Inks
- Printing Inks
- Ball Point Pens
- Inkjet Inks
- Hot Melt Inks
- Decorative Foils and Packaging
- PE Foam Underlayment
- Dyes for Flowers
